## PIONEER TM TAPER MILLS

The PIONEER TM Series of Taper Mills is dressed with tungsten carbide alloy to provide a durable milling action. The objective of the taper feature is to allow entry into flattened, split or generally mis-shapen casing and progressively mill it out to its original contour.

All Pioneer mills are dressed with Pioneer TC Alloy (sintered tungsten carbide).

**NOTE :**

Comprehensive ranges of Taper Mills, Junk Mills and Round Nose Mills are readily available, call our Sales Office and discuss your requirements.

Economy Taper Mill

Standard Taper Mill

**“When time is of the essence, Pioneer delivers”**
